Motorcycle Lifters

Motorcycle Lifter - 360kg

Product Code: 2102T

This TradeQuip Hydraulic Motorcycle Lifter has a safe working capacity of up to 360kg. Our design features include a full steel ramp, scissor lift technology and convenient mobility with 2 swivel and 2 fixed castors. The base frame is made of quality steel tube and the platform is manufactured of checker plate. Front wheel clamping jaws are stepless (up to 135mm) with stability assured via the crank handle. A quality hydraulic foot pump easily raises and lowers the ATV/ Bike load... whilst the automatic safety lock delivers piece of mind safety and security. "Made for the Trade" quality swivel castors provide smooth, stable and convenient mobility. This TradeQuip Hydraulic Motorcycle Lifter comes complete, with an 'extra-large' (removable) loading ramp which is also caters for most motorcycles with kickstands. The 2102T Motorcycle Lifters robust and versatile construction, includes a front wheel vice and 4 hook mounts to safely secure any load up to 360kg.

Ideal for a variety of professional workshop applications and in particular suited to Motorcycle and All Terrain Vehicle use, the TradeQuip Motorcycle Lifter range is designed primarily to facilitate easier access to 2 wheeled vehicle repair & maintenance jobs.

Motorcycle Lifter - 450kg

Product Code: 2101T

This Tradequip "Made for the Trade" Hydraulic Motorcycle Lifter has a safe working capacity of up to 450 kg. The hydraulic foot pump raises and lowers ATV/Bike while the automatic safety lock makes sure you are safe and secure the entire time. This professional quality 11 gauge steel plate construction makes this hydraulic lifter one of the strongest on the Australian market. The hydraulics system operates via a dual pedal mechanism. One pedal raises the Lifter while the other lowers it. This Lifter is also designed with safety in mind, the features include a wheel vice chock, stop plate, and tie-down strap access ports. It's diamond plating surface minimises tyres slipping and sliding as you work on your bike. The built-in swivel castors provide convenient mobility and stability when you need it and the lockable bolts ensure its secure when you don't. The Tradequip Hydraulic Motorcycle Lifter is complete with an extra-large removable loading ramp which is also suitable for motorcycles with kickstands. The lifters robust and versatile construction, includes in a front wheel vice and 4 hook mounts for securing the load.

Our Tradequip Hydraulic Motorcycle Lifter is the perfect solution for professional workshops or home mechanics that want to take their maintenance and servicing to the next level. This unit is bigger, stronger, heavier and lifts higher than similar looking bike lifts sold in Australia. Bending down and getting on your hands and knees whilst servicing will be a thing of the past when you can easily lift your bike to an optimal working level. Stability and security will not be an issue, the 45 degree front wheel clamp along with the 4 tie-down points will allow you to prevent any unwanted movement of the bike. Underneath the platform is a professional quality steel frame, an adjustable locking device to prevent accidental lowering and a high quality 500kg rated capacity hydraulic ram. – rated to 450kg at 750mm lift height (weight capacity reduces over this height)

Motorcycle Lifter - 500kg

Product Code: 2104T

This TradeQuip "Made for the Trade" Motorcycle Lifter Support Stand has a safe working capacity of up to 500 kg. It is designed to elevate motorcycles, ATVs, riding mowers or snowmobiles to make repairs and maintenance easier and more comfortable. Our TradeQuip scissor style support stand is suitable for use either on a motorcycle lift or on the floor.

The top of the platform has two sliding "U" shaped supports enabling the lifter to hold motorcycle subframe down tubes. Adjust the height of the scissor mechanism by rotating the screw adjuster manually.

Our TradeQuip Motorcycle Lifter is the perfect accessory lifter for professional workshops that want to take their maintenance and servicing to the next level. This unit is bigger, stronger, heavier and lifts higher than similar looking bike lifts sold in Australia. Trying to get the back wheel off the ground whilst servicing will be a thing of the past when you can easily and safely lift the bikes back wheel off the platform lifter whilst it is up in the air.
