## Porta Power Kit - 10,000kg

**Product Code: 2010T**

The TradeQuip "Made for the Trade" 10,000kg Hydraulic Porta Power Kit is designed to be used for pushing, spreading, and pressing of vehicle body panels as well as various component parts and assemblies. The variety of attachments include a rubber head, flat base, wedge spreader, spreader toe and various extension tubes with a snap lock design for quick and easy assembly.

The pump has an automatic overload system to help prevent damage to the pump ram and associated equipment. The flex head features a permanently moulded rubber pad, interlocked to prevent separation. The complete kit includes a variety of specially designed auto body, frame repair and construction components for lifting, pushing, bending and spreading.

### Features

- Spring loaded ram return system, allowing controlled retraction of the ram
- Pump may be used in horizontal and vertical position
- Constructed of high-grade steel and built to exacting standards for quality and durability
- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust
- Paint is oil, grease and dirt-resistant for easy cleanup
- Pump has an automatic overload system to help prevent damage to rams and equipment
- Easily adapts to hoses, rams, pumps, spreaders, and other accessories using common 1/4" fittings
- Contained in sturdy Plastic Carry Case

### Specifications

- Working Capacity: 10,000kg
- Kit Contents: 14 Pieces containing Pump, Hose and Fittings
- Ram Length retracted: 322mm
- Ram Length fully extended: 452mm
- Extensions: 110, 265, 365, 520mm
- Adaptor Diameter: 33mm
- Hydraulic Hose Length: 1500mm
- Hydraulic Oil Capacity: 650ml
- Overall Carry Case Dimensions: 905(L) x 385(W) x 175(H) mm
- Nett Weight: 31kg
- Carton: 925 x 395 x 185mm
- Gross Weight: 32kg

**MADE FOR THE TRADE**

## Air/Hydraulic Pump - 10,000psi

**Product Code: 2054T**

This "TradeQuip Made for the Trade" hand or foot hydraulic air pump is designed to operate pneumatically. It is an ideal power source for various body, frame and alignment applications and can be used with different ram kits, shop presses and hydraulic pullers (not included) that operate with a hydraulic oil pressure requirement of up to 10,000 psi. This heavy duty hydraulic air pump connects via a 1/4" NPT air nipple and a 3/8" NPT hydraulic adaptor. Hydraulic hose and adaptor kit not included. Available separately use Product Code: 2054-H

### Features

- Made of Durable Light-weight Corrosion-free Aluminium
- Built-in Overload System prevents pump from being used beyond its safety capacity
- Hand of Foot Activation Lever
- Filter prevents contaminants from entering hydraulic system

### Specifications

- Maximum output pressure: 10,000psi
- Usable Hydraulic Fluid Capacity: 2.25 Litres
- Operating air pressure: 90-145 psi
- Air consumption: 7.5CFM @ 100 psi
- Oil Delivery with No Load: 49.5 cu.in/min
- Oil Delivery with Load: 7.6 cu.in/min
- Input (Air) port thread: 1/4" -18 NPT
- Output (Oil) port thread: 3/8" -18 NPT
- Weight: 8kg
- Carton: 300 x 170 x 205mm

**MADE FOR THE TRADE**

**TRADEQUIP**  
the trusted brand in equipment

### About the brand

Our Flagship brand of garage and workshop equipment, TradeQuip is designed for use in a demanding garage and workshop environment by trade users. With proven and trusted "Made for the Trade" reliability, TradeQuip branded products offer the very best in performance for an affordable price. The TradeQuip range is covered by a 12 month trade use warranty.

## Porta Power Kit - 20,000kg

**Product Code: BPP20T**

Our 20,000kg "Borum Industrial" Porta-Power set provides extra capacity for the toughest assignments. Two-speed pump extends ram quickly saving time and money.

Versatile attachments provide broad range of function. Automatic two speed pump speeds ram to load, then shifts power stroke. With this set, spread materials apart and pull heavy duty machinery and sections. Pull, bend, lift, push, straighten and spread metals with this industrial quality hydraulic kit! Kit contains a heavy-duty pump and multiple extensions and accessories to repair body panel dents, level machinery and more. The 10,000 PSI pump in this portable hydraulic kit exerts tremendous force for fixing, forcing and shaping metal. This is a heavy duty set makes all bull-work repairs easier.

This equipment is used by the industry professionals for pressing, spreading, lifting, straightening and clamping panel and paint workshops and collision repair centres. Components are manufactured to industry standards, eg. precision threaded for durability and extension tubes that feature a strong wall design for increased resistance to bending and deformation. All kits are supplied with industry standard high flow hydraulic couplings and dust caps.

### Powerful, Heavy-Duty Operation

This 20,000kg heavy-duty hydraulic body repair kit is the perfect choice for a wide variety of uses. The quality components and fittings make this unit perfect for those looking for quality and precision all day everyday!

### Added Safety Overload Protection

Carelessness can cause injuries, but this unit gives you extra peace of mind. It's fitted with a safety overload valve for extra protection. Even if you load the ram unit up with too much force, the safety overload kicks in to protect the internals.

### Use It Day In And Day Out

This professional kit is designed for durability. A rugged high-grade steel construction is teamed with a lead-free paint finish that covers the entire surface to ensure long-lasting wear and help prevent rust. The paint is oil-, grease- and dirt-resistant for easy cleanup no matter how often you put this porta power kit to work.

### Features

Constructed of high-grade steel and built to exacting standards for quality and durability

Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust

Paint is oil, grease and dirt-resistant for easy cleanup

High quality hydraulic steel cylinder unit results in lower oil pressure needed to raise the load, helping to reduce wear and extend service life

Piston-ram is treated and polished

Hydraulics are powered with a high quality oil, which offers better corrosion resistance and high/low temperature flexibility.

Heavy walled extension tubes stand up in tough applications

2x metal storage cases

### Accessories

700mm extension tube

510mm extension tube

255mm extension tube

125mm extension tube

3 each, 70mm connective tube & 60mm joint connector tube

Base

Ram toe

Plunger toe

Wedge toe

V-base

Wrench

### Specifications

Safe Working Capacity: 20,000kg

Retracted Ram Length: 285mm

Ram Stroke: 125mm

Hydraulic Hose Length: 1470mm

Weight: 62kg

Carton 1 of 2: 810 x 300 x 185mm

Carton 2 of 2: 820 x 405 x 115mm

### About the Borum brand

Our "heavy duty commercial" range of Borum Industrial equipment has been manufactured to exacting standards for the past 38 years. We specify industrial quality components and design to ensure a long and durable working life in commercial transport, mining, earthmoving and railway environments. Our Borum Industrial range of equipment is focused on achieving superior professional standards, reliability, quality, and are covered by a 12 month trade use warranty.

## Porta Power Kit - 4,000kg

**Product Code: RL4TPP**

The Economy Red Label 4,000kg Hydraulic Auto Body Repair Kit is designed to be used for pushing, spreading, and pressing of vehicle body panels as well as various component parts and assemblies. The variety of attachments include a rubber head, flat base, wedge spreader, spreader toes and various extension tubes with a snap lock design for quick and easy assembly.

The pump has an automatic overload system to help prevent damage to the pump ram and associated equipment. The flex head features a permanently moulded rubber pad, interlocked to prevent separation. The complete kit includes a variety of specially designed auto body, frame repair and construction components for lifting, pushing, bending and spreading. 1Year Limited Warranty.

### Features

Pump may be used in horizontal and vertical position  
Constructed of high-grade steel and built to exacting standards for quality and durability  
Easily adapts to hoses, rams, pumps, spreaders, and other accessories using common 1/4" fittings

### Specifications

Safe Working Capacity: 4,000kg  
10 Piece Kit containing Pump, Hose and Fittings  
Ram Length retracted: 150mm  
Ram Length fully extended: 367mm  
Contained in sturdy Plastic Carry Case  
Weight: 18kg  
Carton: 600 x 355 x 168mm

## Porta Power Kit - 10,000kg

**Product Code: RLBRK10**

The Economy Red Label 10,000kg Hydraulic Auto Body Repair Kit is designed to be used for pushing, spreading, and pressing of vehicle body panels as well as various component parts and assemblies. The variety of attachments include a rubber head, flat base, wedge spreader, spreader toes and various extension tubes with a snap lock design for quick and easy assembly.

The pump has an automatic overload system to help prevent damage to the pump ram and associated equipment. The flex head features a permanently moulded rubber pad, interlocked to prevent separation. The complete kit includes a variety of specially designed auto body, frame repair and construction components for lifting, pushing, bending and spreading. 1Year Limited Warranty.

### Features

Pump may be used in horizontal and vertical position  
Constructed of high-grade steel and built to exacting standards for quality and durability  
Easily adapts to hoses, rams, pumps, spreaders, and other accessories using common 1/4" fittings  
Contained in sturdy Plastic Carry Case

### Specifications

Safe Working Capacity: 10,000kg  
Kit Contents: 14 Pieces containing Pump, Hose and Fittings  
Ram Length retracted: 150mm  
Ram Length fully extended: 367mm  
Weight: 26kg  
Carton: 930 x 390 x 175mm

## Ram Accessory Kit

**Product Code: RAMKIT**

This Borum Industrial Ram Kit includes 2 puller rams and 5 pusher rams for lifting, pushing, pulling, bending, and straightening. A must for a variety of auto body, frame repair, and construction jobs. Ram and cylinder bearings are designed for protection against off-centre load stresses. High flow quick-connect coupler with dust cap.

Borum Industrial quality multi-purpose hydraulic rams are used for automotive, truck, farm and heavy equipment repair. Quality steel design with high gloss enamel coating for durability and longevity.

\* Requires hydraulic pump, hoses and fittings, sold separately.

### Features

Used for pulling, pushing, bending, lifting, straightening and spreading operations in auto body and heavy equipment frame repair  
 Hardened, heat treated steel design for durability and long service life  
 High gloss enamel coating to prevent corrosion  
 Uses a common 1/4" NPT attachment to connect to a hydraulic pump for up to 10,000kg of pneumatic power  
 Comes in heavy duty metal transport case for organisation and storage  
 Individual rams available separately

### Set Includes

- |  |  |
|--|--|
| 2,000kg Mini Ram                         | - Compressed 126mm > Stroke 73mm > Working Pressure 5700psi  |

Our Borum Industrial range of equipment is focused on achieving superior professional standards, reliability, quality, and are covered by a 12 month trade use warranty.

## Mini Hydraulic Ram - 4,000kg

**Product Code: RAMKIT-MR4**

*This single-action Borum Industrial Hydraulic Mini Ram is perfect for tight spaces when a standard porta power ram just won't fit. Attaches with an easy installation ZG 1/4in. half coupler fitting. This 4,000kg mini ram works with Borum hydraulic pumps to push, bend and straighten metal. Working up to 5,700psi, this hydraulic push ram can be used vertically or horizontally.*

*Borum Industrial mini rams are designed for all kinds of power operations and are ideal for working in tight spaces. Borum hydraulic rams come with a quick connect couplers and feature polyurethane seals for a long service life. The Borum Industrial hydraulic ram range includes puller rams and pusher rams for lifting, pushing, pulling, bending, and straightening. A must for a variety of auto body, frame repair, and construction jobs. Ram and cylinder bearings are designed for protection against off-centre load stresses. All are fitted with high flow quick-connect couplers with dust cap.*

\* Requires hydraulic pump, hoses and fittings, sold separately.

### Features

Constructed of high-grade steel and built to exacting quality standards  
Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish  
Paint is oil, grease and dirt-resistant for easy cleanup  
High quality large diameter hydraulic steel cylinder unit results in lower oil pressure needed to move the load  
Piston-ram is treated and polished for durability and longevity  
Polyurethane sealing ring with backup ring, prevents load from retracting slowly or bypassing oil drift  
High/low temperature flexibility allows the unit to operate at temperatures between 5°C and 40°C  
Automatic return spring returns ram to collapsed position without a load  
High-performance wiper seal reduces contamination and extends cylinder life  
Screw extension provides added versatility

### Specifications

Safe Working Capacity: 4,000kg  
Max Hydraulic Pressure: 5,700psi  
Collapsed Length: 40mm  
Stroke: 18mm

## Mini Hydraulic Ram - 10,000kg

**Product Code: RAMKIT-MR10**

*This single-action Borum Industrial Hydraulic Mini Ram is perfect for tight spaces when a standard 10,000kg ram just won't fit. Attaches with an easy installation ZG 1/4in. half coupler fitting. This 10,000kg mini ram works with Borum hydraulic pumps to push, bend and straighten metal. Working up to 8,000psi, this hydraulic push ram can be used vertically or horizontally.*

*Borum Industrial mini rams are designed for all kinds of power operations and are ideal for working in tight spaces. Hydraulic mini rams are designed for lifting heavy equipment high enough for forklift or jack placement or for straightening warped metal after welding. Borum hydraulic rams come with a quick connect couplers and feature polyurethane seals for a long service life.*

*The Borum Industrial hydraulic ram range includes puller rams and pusher rams for lifting, pushing, pulling, bending, and straightening. A must for a variety of auto body, frame repair, and construction jobs. Ram and cylinder bearings are designed for protection against off-centre load stresses. All are fitted with high flow quick-connect couplers with dust cap.*

\* Requires hydraulic pump, hoses and fittings, sold separately.

## Porta Power Ram - 4,000kg

Product Code: RAMKIT-PR4

This single-action Borum Industrial Hydraulic Push Ram is perfect for tight spaces when a standard porta power ram just won't fit. Attaches with an easy installation ZG 1/4in. half coupler fitting. This 4,000kg mini ram works with Borum hydraulic pumps to push, bend and straighten metal. Working up to 8,800psi, this hydraulic push ram can be used vertically or horizontally.

Borum Industrial hydraulic rams are designed for all kinds of power operations and are ideal for working in tight spaces. Borum hydraulic rams come with a quick connect couplers and feature polyurethane seals for a long service life. The Borum Industrial hydraulic ram range includes puller rams and pusher rams for lifting, pushing, pulling, bending, and straightening. A must for a variety of auto body, frame repair, and construction jobs. Ram and cylinder bearings are designed for protection against off-centre load stresses. All are fitted with high flow quick-connect couplers with dust cap.

## Mini Hydraulic Ram - 2,000kg

**Product Code:** RAMKIT-MR2

*This single-action Borum Industrial Hydraulic Mini Ram is perfect for tight spaces when a standard porta power ram just won't fit. Attaches with an easy installation ZG 1/4in. half coupler fitting. This 2,000kg mini ram works with Borum hydraulic pumps to push, bend and straighten metal. Working up to 5,700psi, this hydraulic push ram can be used vertically or horizontally.*

*Borum Industrial mini rams are designed for all kinds of power operations and are ideal for working in tight spaces. Borum hydraulic rams come with a quick connect couplers and feature polyurethane seals for a long service life.*

*The Borum Industrial hydraulic ram range includes puller rams and pusher rams for lifting, pushing, pulling, bending, and straightening. A must for a variety of auto body, frame repair, and construction jobs. Ram and cylinder bearings are designed for protection against off-centre load stresses. All are fitted with high flow quick-connect couplers with dust cap.*

*\* Requires hydraulic pump, hoses and fittings, sold separately.*

### Features

- Fully hardened alloy steel attachments
- Solid steel shaft with knurled handle for sure grip
- Long shaft allows for a more powerful pulling force
- High quality, durable finish
- Designed to remove front & rear hubs, bearing oil seal bushes and various types of axles
- Manufactured from heat treated forged steel for strength and durability
- Ideal for pulling dents from automotive bodywork as well as removing shaft and hub bearings
- Includes plastic carry case for storage and transport

### Specifications

- Safe Working Capacity: 2,000kg
- Max Hydraulic Pressure: 5,700psi
- Collapsed Length: 126mm
- Stroke: 73mm

Superior  
Quality  
since  
**1984**

### About the Borum brand

Our "heavy duty commercial" range of Borum Industrial equipment has been manufactured to exacting standards for the past 38 years. We specify industrial quality components and design to ensure a long and durable working life in commercial transport, mining, earthmoving and railway environments. Our Borum Industrial range of equipment is focused on achieving superior professional standards, reliability, quality, and are covered by a 12 month trade use warranty.

TQB Brands Pty Ltd

TQB Brands has grown to become one of the most respected garage equipment suppliers in Australia and markets the recognised leading brands TradeQuip, TQ Pro, Borum and Red Label Nationally through 1000+ distributors. We offer an extensive range of products including Garage & Workshop, Industrial, Agricultural and Vehicle Service Equipment. We continually strive to introduce new and innovative garage and workshop tools and equipment for the professional, which comply with mandatory Australian Standards. TQB Brands aims to achieve great value for money whilst not compromising on quality. TQB Brands prides itself on offering fit for purpose product through our tiered brand offerings.

Our **Flagship** brand of garage and workshop equipment, **TradeQuip** is designed for use in a demanding **garage and workshop** environment by trade users. With proven and trusted **"Made for the Trade"** reliability, **TradeQuip** branded products offer the very best in performance for an affordable price. The **TradeQuip** range is covered by a **12 month trade use warranty**.

Our **"heavy duty commercial"** range of **Borum Industrial** equipment has been manufactured to exacting standards for the past **38 years**. We specify industrial quality components and design to ensure a long and durable working life in **commercial transport, mining, earthmoving and railway** environments.
