Stands Ramps & Dollies

Jack Stands - 2,000kg, 4,000kg & 8,000kg

Product Codes: 1128T, 1148T, 1162T

TradeQuip "Made for the Trade" Adjustable Jack Stands are ideally suited to the professional trade workshop. These ratchet type axle stands are designed with a cast iron support post, tough steel plate welded base and deep saddle for positive location under the vehicle. The cast iron post is equipped with angled teeth and a double-lock safety pin (1128T and 1148T only) to prevent accidental release of load - the more weight applied, the tighter the post is locked.

Features

- Constructed of high-grade steel and built to exacting standards for quality and durability
- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust
- Paint is oil, grease and dirt-resistant for easy cleanup
- Quick action adjustable height mechanism
- Double-lock safety pin (1128T and 1148T only) design for extra safety and security
- Welded steel frame & cast iron support
- Adjustable height
- Reinforced shaft for added strength stability
- Sold in pairs and only recommended to be used in pairs

About the Borum brand

Our "heavy duty commercial" range of Borum Industrial equipment has been manufactured to exacting standards for the past 39 years. We specify industrial quality components and design to ensure a long and durable working life in commercial transport, mining, earthmoving and railway environments. Our Borum Industrial range of equipment is focused on achieving superior professional standards, reliability, quality, and are covered by a 12 month trade use warranty.

Auxiliary Stand - 7,000kg

Product Codes: BAUXS7T

The BORUM Industrial Heavy Duty Auxiliary Stand is a reinforced pin style vehicle stand with a heavy duty design and support bracing system to sustain heavy vehicle loads up to 7,000kg. It's adjustable to match the job with a 1255mm minimum lift height and 1905mm maximum lift height !! Featuring Heavy-Duty Industrial design, this tough stand is ideal for use under 2 post and 4 post vehicle lifts. With adjustable height increments, 3 choices of saddle attachments, and a stable tripod design, the feet (with base plates) securely hold this auxiliary stand in place when the spring loaded swivel castor wheels are under load. This heavy duty stand is mobile when needed and stable under load, so its a very handy piece of equipment when working under a vehicle lift. This tripod design ensures complete stability, even when your workshop floor is not perfectly flat.

Features

- Heavy duty design and support bracing system to sustain heavy vehicle loads
- Manufactured from high-grade steel and built to exacting standards for quality and durability
- Fitted with spring loaded castor wheels to ensure easy movement around the workshop
- Fitted with spring loaded support beam
- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust
- Paint is oil, grease and dirt-resistant for easy cleanup
- High strength locking pin
- Controlled pin holes for easy height adjustments
- Turned post slide for easy quick adjustments

Specifications

- Safe Working Capacity: 7,000kg
- Maximum Height: 1905mm
- Minimum Height: 1295mm
- 3 saddle options: 90mm, 120mm, up to 150mmØ
- Adjustable Pin Heights: 8 (75mm increments)
- Base Dimensions: 300x300x300mm
- Nett Weight: 65kg
- Carton: 1130 x 370 x 320mm
- Weight: 68kg

Intended Use

- To support and/or stabilise a vehicle that is raised by a 2 or 4 post hoist or in-ground lift.
- Should always be used in pairs.

Portable Truck Ramps - 20,000kg

Product Codes: **BTR20TP** and **BNTR20PN**

The Borum Industrial Portable Truck Ramp Set is designed for maintenance and servicing work on trucks, buses and forklifts allowing easy and safe access to the undercarriage of vehicles. Easy and safe to use with a 700mm incline and 500mm of horizontal deck with safety flange to prevent fork truck from rolling off the deck. These robust ramps are fitted with a unique wheel mechanism which raises and lowers for easy manoeuvrability. These steel truck ramps feature non-skid bases and non-slip traction plates to keep the ramps and their load in place. Handle retracts for out of the way safety and storage. Sold in pairs.

Features

- Portable ramps that adhere to the floor like glue
- Pull the handle out, rotate it up to lock the wheels down for very easy maneuverability around workshop
- Large wheel designs for extra durability
- Long retractable T-handle for easy positioning
- "NON-SKID BASE" - Four ply pads of rubber grips are bolted and glued to the 6mm steel floor plates and they will not skid ahead of the wheels
- Replaces need for a pit or hoist, and at a fraction of the cost and floor space
- Also very popular in Motor Home, Bus and Forklift maintenance workshops

Specifications - BTR20TP (WIDE)

- Safe Working Load: 20,000kg (per pair)
- Max Vehicle Tyre Width: 393mm
- Frame Height: 242mm
- Frame Width: 463mm
- Frame Length: 1160mm
- Handle Length: 860mm
- Ramp Angle: 18°
- Sold in pairs
- Carton: 1290 x 500 x 260mm (x 2)
- Gross Weight: 160kg (80kg each carton)

Intended Use

For elevating the front or rear of vehicle to access chassis frame and/or components. Particularly useful on vehicles with low profile clearance or ground-effects.

Truck Wheel Lifter/Dolly - 750kg

Product Codes: **BTWD750**

This Borum Industrial Truck Wheel Lifter is designed for the removal, installation and transportation of single, tandem and duplex truck tyre and wheel combinations. Hydraulically activated lift arms handle wheel assemblies up to 400mm frame with tilt feature that aligns lift arms with spindle angle. Three ball bearing mounted castor wheels provide positive stability and easy maneuverability. Bearing mounted lift arms easily rotate vehicle rim for bolt pattern alignment.

Ideal for a variety of professional workshop applications and in particular suited to heavy vehicle servicing, this Borum Wheel Lifter allows a single user to remove and replace heavy tyre/wheel assemblies from and onto a vehicle without physical strain. Move tyres from vehicle to changer to balancer and back without any lifting! This ergonomically correct product maintains safety in any heavy vehicle workshop and minimises chances of injury from handling all single, tandem and duplex truck tyre and wheels with ease.

Features

- Hydraulic system actuated to provide smooth, positive power for the removal and installation of single, tandem and duplex tyres and wheels
- Heavy duty steel frame tilts to allow precise positioning of truck tyres.
- Supports heavy commercial rims and tyres
- Rolls easily on quality steel bearing castors
- Includes heavy duty chain to keep load secure
- Lead-free paint is applied to ensure a long-lasting finish and prevent corrosion
- Paint finish is oil, grease and dirt-resistant for easy cleanup

Specifications

- Safe Working Capacity: 750kg
- Lift Arm Spread: 533mm (min) to 635mm (max)
- Lifting Range: 60 - 275mm
- Tilt Range: -2.5 to 10 degrees
- Dimensions: 787(L) x 1092(W) x 895(H)mm
- Weight: 70kg

**INDUSTRIAL
QUALITY**

Intended Use

For the removal and installation of single, tandem and duplex tyres and wheels.

BORUM
INDUSTRIAL WORKSHOP EQUIPMENT

About the Borum brand

Our "heavy duty commercial" range of Borum Industrial equipment has been manufactured to exacting standards for the past 39 years. We specify industrial quality components and design to ensure a long and durable working life in commercial transport, mining, earthmoving and railway environments. Our Borum Industrial range of equipment is focused on achieving superior professional standards, reliability, quality, and are covered by a 12 month trade use warranty.

Auxiliary Stand - 680kg

Product Codes: 1198T

Our TradeQuip "Made for the Trade" Under Hoist Auxiliary Stands are ideally suited to the professional trade workshop. This underhoist auxiliary stand is ideal for supporting exhaust systems, shock absorbers and other vehicle components during under-hoist vehicle repair. Under Hoist Auxiliary Stands are a vital element in any automotive repair workshop where efficiency is an important part of the business. The TradeQuip adjustable underhoist Auxiliary Stands function as an extra set of hands for holding heavy components in place, thus freeing up the mechanics hands to assemble or disassemble. These portable stands are a huge favourite in transmission and muffler shops. Auxiliary stands provide partial support for components - they are NOT designed to support the vehicle.

Features

- Fast and safe technology for professional mechanics
- Heavy gauge steel frame prevents distortion or twisting
- Auxiliary stands provide partial support for components - they are NOT designed to support the vehicle
- Foot pedal allows easy load movement and hand free operation
- Quick action adjustable height mechanism
- Sold individually recommended only to be used individually

Specifications

- Safe Working Capacity: 680kg
- Minimum Height: 1370mm
- Maximum Height: 2045mm
- Base Diameter: 300mm
- Carton: 1390 x 370 x 90mm
- Weight: 16.5kg

MADE FOR THE TRADE

Intended Use

Designed to support vehicle components, not the vehicle. Ideal when used with a 2or4 post hoist for exhaust system installation, shock absorber replacement and any task which requires holding vehicle components during removal and/or replacement.

TQ TRADEQUIP
the trusted brand in equipment

Vehicle Wheel Dollies - 1360kg

Product Codes: 1181

A pair of TradeQuip "Made for the Trade" wheel dollies provides an easy way to move a car, SUV, heavy machinery and more, all by yourself. Each dolly is fitted with four heavy duty swivel castors. Robust steel manufacture enables up to 680kg weight to be carried on each dolly. Designed to locate underneath vehicle wheels allowing precise and easy movement within confined spaces.

Features

- Easily move cars backwards, forwards, even sideways
- Heavy duty steel construction for strength and durability
- Heavy duty swivel castors for great manoeuvrability
- Platform features a grooved, treadplate surface that can handle up to a 680kg load
- Durable steel deck with tough powder-coat finish to help resist scratches and rust
- Sold as a pair

Specifications

- Safe Working Capacity: 680kg per Dolly
- Platform Dimension: 400 x 300mm
- Castors: 75mm Dia 2 x standard castors and 2 x castors with locking brakes
- Total capacity is 1360kg for the set of 2
- Carton: 450(L) x 360(W) x 90(H)mm
- Gross Weight: 15kg

MADE FOR THE TRADE

TQ TRADEQUIP
the trusted brand in equipment

Intended Use

For easy movement of vehicles that are inoperable due to parts removal or other mechanical problems to free up hoists and jack stands for other work to be performed.

About the brand

Our Flagship brand of garage and workshop equipment, TradeQuip is designed for use in a demanding garage and workshop environment by trade users. With proven and trusted "Made for the Trade" reliability, TradeQuip branded products offer the very best in performance for an affordable price. The TradeQuip range is covered by a 12 month trade use warranty.

Vehicle Positioning Jacks - 680kg

Product Codes: 1054T

These TradeQuip "Made for the Trade" Vehicle Positioning Jacks make manoeuvring vehicles safely and easily, without touching the chassis! Constructed from high-quality powder-coated steel, they have an impressive lifting capacity of 680kg each.

TradeQuip is a brand synonymous with premium quality automotive lifting equipment, and therefore these jacks are ideal for use in commercial premises such as mechanics and panel beaters workshops, car dealerships, as well as home garages.

The smooth foot action squeezes the support legs together to lift the tyre off the ground, and the locking pin ensures optimum safety. Heavy-duty nylon swivel castor wheels enable the rolling of cars, quad bikes, vans and light trucks into tight areas with ease. Relocating non-running vehicles or shells will never again be a drama!

This pair of positioning jacks will allow 180° pivoting, add you can add an extra pair to allow for 360° manoeuvrability.

We often forget that working with cars and other vehicles can be a dangerous job. It's easy to get complacent about yours and your employees' safety when you have years of experience, however accidents can happen to anyone. Although garage and bottle jacks can lift heavy loads they are not designed to keep them there, so when the vehicle has been jacked up it's crucial that it is placed on a jack stand.

TradeQuip jack stands are excellently designed to ensure you maximum safety. They have wide feet providing a strong base and a unique locking pin so there is no risk of them slipping.

Features

- Steel Construction with metal rollers
- Heavy duty nylon swivel castors for great manoeuvrability
- Easy foot-pedal lifting design smoothly raises a vehicle
- Lifting rollers make tyre contact only
- 2 jacks permit full 180° vehicle pivot
- 4 jacks place vehicle on a 360° rolling platform
- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust
- Paint is oil, grease and dirt-resistant for easy cleanup
- Quick action adjustable height mechanism
- Sold in pairs and only recommended to be used in pairs

Specifications

- Safe Working Capacity: 680kg each
- Suits Tyres up to: 280mm (W)
- Swivel Castors: 100mm
- Max Distance Between Rollers: 710mm
- Min Distance Between Rollers: 340mm
- Nett Weight: 15kg
- Carton: 620 x 190 x 190mm
- Gross Weight: 16kg

Intended Use

For easy movement of vehicles that are inoperable due to parts removal or other mechanical problems to free up hoists and jack stands for other work to be performed.
